Incompatible with Life K. R. Pendergrass 2017-03-02 Looking beyond her red hair, small build, and blue eyes, twenty-four-year-old Lindsey is a paramedic, a Christian, and a book collector. She owns just about every book written by Stephen King, Dean Koontz, Kathy Reichs, Karen Slaughter, and a host of others. But Stephen King is her favorite. Lindseys best friend, Eric, works at a local used bookstore and is always on the lookout for special books to add to her collection. Shes thrilled when a hardcover copy of The Colorado Kid appears at the store; she wastes no time in making the purchase. While reading her new find, Lindsey discovers a black-and-white photo of a small boy, shirtless and sitting in a chair at a kitchen table; a ransom note is written on the back. At the same time, a frenzied man viciously attacks Eric at the store; hes looking for that specific copy of The Colorado Kid that Lindsey just purchased. Lindsay and Eric conclude that a little boy is in serious trouble, and the two friends become embroiled in a life-and-death struggle straight out of one of Lindseys beloved books.

Love Lifts the Heart Nancy Crapser Hunt 2009-12-15 This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.

Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
