OCR A Level PE John Honeybourne 2016-10-31 Inspire, motivate and give confidence to your students with OCR PE for A Level Book 2. This reliable and accessible textbook will offer your students comprehensive support for both the academic and practical elements of the course. We are working in collaboration with OCR to produce the following print resources that support the teaching and learning of the new A Level Physical Education specification - Key questions to direct thinking and help students focus on the key points - Diagrams to aid understanding - Summaries to aid revision and help students access the main points - Extension questions, stimulus material and suggestions for further reading to stretch, challenge and encourage independent thinking and a deeper understanding - Definition of key terms - again to aid and consolidate understanding of technical vocabulary and concepts - Activities to build conceptual understanding and sound knowledge and understanding, analysis, evaluation and application skills  
Meaningful Physical Education Tim Fletcher 2021-02-25 This book outlines an approach to teaching and learning in physical education that prioritises meaningful experiences for pupils, using case studies to illustrate how practitioners have implemented this approach across international contexts. Prioritising the idea of meaningfulness positions movement as a primary way to enrich the quality of young people's lives, shifting the focus of physical education programs to better suit the needs of contemporary young learners and resist the utilitarian health-oriented views of physical education that currently predominate in many schools and policy documents. The book draws on the philosophy of physical education to articulate the main rationale for prioritising meaningful experiences, before identifying potential and desired outcomes for participants. It highlights the distinct characteristics of meaningful physical education and its content, and outlines teaching and learning principles and strategies, supported by pedagogical cases that show what meaningful physical education can look like in school-based teaching and in higher education-based teacher education. With an emphasis on good pedagogical practice, this is essential reading for all pre-service and in-service physical education teachers or coaches working in youth sport.

AS PE for OCR Dave Carnell 2002 This specification gives learners a clear appreciation of key issues in physical education including balanced, active and healthy lifestyles, a focus on performance in practical activity, and the opportunity to pursue particular areas of interest.

OCR GCSE (9-1) Business, Third Edition Mike Schofield 2017-09-11 An OCR endorsed textbook Build strong knowledge and skills with this market-leading Student Book from OCR's Publishing Partner for GCSE Business; fully updated by subject experts for the 2017 specification, it provides comprehensive content coverage, engaging case studies and assessment activities. - Develops understanding of business concepts and theories through clear explanations, illustrated by diagrams and cartoons that help all learners access the content - Cements and extends subject knowledge with case studies that encourage students to think commercially about contemporary issues and contexts - Enables students to apply their learning and strengthen their investigative, analytical and evaluation skills as they progress through a range of activities - Prepares students for assessment with a variety of practice questions and handy tips for successfully answering different question types - Supports revision by summarising the learning outcomes, key terms and facts for each unit

OCR A Level History: Britain 1603-1760 Nicholas Fellows 2015-10-23 This is an OCR endorsed resource Build strong subject knowledge and skills in A Level History using the in-depth analysis and structured support in this tailor-made series for OCR's British period studies and enquiries. - Develops the analytical skills required to succeed in the period study by organising the narrative content around the key issues for students to explore - Enhances understanding of the chosen historical period, supplying a wealth of extracts and sources that offer opportunities to practise the evaluative skills needed for the enquiry - Progressively improves study skills through developmental activities and advice on answering practice exam questions - Helps students to review, revise and reflect on the course material through chapter summaries and revision activities that consolidate topic knowledge - Equips students with transferable critical thinking skills, presenting contrasting academic opinions that encourage A Level historians to make informed judgements on major debates Each title in the OCR A Level History series contains one or two British period studies and its associated enquiry, providing complete support for every option in Unit Group 1. Britain 1603-1760 This title explores the reigns of the Stuart monarchs and Georgian Britain through two British period studies and two enquiries. It allows an in-depth understanding of the key historical knowledge, terms and concepts relevant to the period studied and encourages the critical use of evidence in investigating and assessing historical questions in the associated enquiries: 'The Execution of Charles I and the Interregnum 1646-1660' and 'The Glorious Revolution 1678-1689'. This title covers the following period studies and enquiries: - The Early Stuarts and 1603-1646 - The Execution of Charles I and the Interregnum - The Glorious Revolution 1678-1689 - The Making of Georgian Britain 1689-c1760

**Introduction to Information Retrieval** Christopher D. Manning 2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.
